

**ASSOCIATION OF LOUISIANA  
ELECTRIC COOPERATIVES  
2024-2025 DIRECTORY**

# power on AMERICA

**At Constellation, we are working hard to create a clean energy future.**

We're generating power that's nearly 90% carbon-free with hydro, wind, solar and the nation's largest, always-on, zero-emissions nuclear fleet.

And we produce around 10% of all clean, emission-free electricity in the country—50% more than any other company in America.

At a time when you're hearing a lot about investments in clean energy, we're actually generating it.

Constellation is proud to support ALEC.

**Constellation.**

**BHA, INC.**  
CONSULTING ENGINEERS

**Booth & Associates**

**DISTRIBUTION**

**TRANSMISSION**

**SUBSTATIONS**

Since 1985, BHA, INC. has provided professional engineering design and planning services for Rural Electric Cooperatives and Municipalities located throughout Louisiana, Mississippi, Alabama, and Arkansas.

In February of 2024, BHA was acquired by Booth and Associates, LLC, a utility consulting engineering firm headquartered in Raleigh, North Carolina. BHA, coupled with Booth's far-ranging expertise, resources, and decades of experience, is able to provide a wider range of professional engineering services, both now and in the future.

***BHA, Inc. specializes in:***

- System Analysis
- Transmission & Distribution Line Design
- Substation Design
- CADD Services
- Overcurrent Protection Coordination
- Joint Use Evaluation
- System Planning
- Rate Analysis
- Expert Witness Testimony

# A **Vision** of **Value**

The word value has many different connotations.

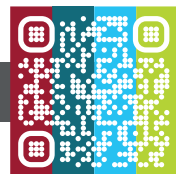

But not at NISC. Value has a very clear definition.

We do far more than just develop software; we develop partnerships.

You get a voice, an ally – and a feel for what value truly means.

Visit [NISCValue.coop](http://NISCValue.coop) to learn more.

m.k.

The graphic features a dark blue background with white and light blue circular and curved lines. On the right, the text 'MC STORM Resource Procurement Process' is displayed in white. 'MC' is in a large, bold, sans-serif font with a lightning bolt striking the 'C'. 'STORM' is in a smaller, bold, sans-serif font. 'Resource Procurement Process' is in a mix of bold and regular sans-serif fonts. On the left, three overlapping circles contain images: a satellite view of a storm, a power line tower in a stormy landscape, and a close-up of a storm cloud with a lightning bolt. A QR code is located in the bottom right area.

# MC STORM Resource Procurement Process

## Bringing the Light After the Storm

Providing multiple, safe and efficient storm restoration services for natural disasters.

## Our Process

- Obtain Preliminary Resource Availability
- Available resources are documented and relayed to Utility in timely manner
- Upon approval by our Utility partner, resources are secured to mobilize towards affected area in a safe and efficient time frame
- MC Management will be present on all events
- All resources are vetted prior to all storm events

It's not about the network.  
**It's about what the network enables.**

NRTC's expertise is broadband and smart grid networks. But, our focus is helping our members maximize and leverage their network to improve the delivery of energy, empower their member-consumers and transform communities.

And since every electric cooperative is unique, our approach is as well. It begins with a conversation. We invite you to talk to us about whatever technology challenge or opportunity is on your mind.

**Matt Timmons**  
*NRTC's Regional Business Manager*  
*Serving Louisiana*  
**620-330-6178**

Member driven. Technology focused.

To learn more, visit [nrtc.coop](http://nrtc.coop) or e-mail us at [memberrelations@nrtc.coop](mailto:memberrelations@nrtc.coop).

**JOIN TODAY** **VCP** **Voices for  
Cooperative  
Power** United for Stronger  
Communities

**LOOKING TO MAKE A DIFFERENCE IN YOUR  
COMMUNITY AND FOR YOUR LOCAL ELECTRIC  
COOPERATIVE? THEN JOIN VCP!**

**SCAN ME

# 1803 ELECTRIC COOPERATIVE

*A generation and transmission cooperative proudly serving the electric power and delivery needs to our five Louisiana Member distribution cooperatives.*

*Low Rates. High Expectations.*

*WST Electric*

# **FERREIRA**

---

## **POWER SOUTH LLC**

Ferreira Power South (FPS) is a multi-faceted electrical contracting company servicing the needs of utility providers, independent, and major oil companies throughout the state of Texas. FPS employs individuals with over 40 years of experience in providing and executing electrical, utility, and underground projects throughout the state. Our staff strives on providing our clients with professional, cost-effective, and dependable quality service with a focus on safety, customer satisfaction, transparent communication, and competitive pricing. We at Ferreira Power South are currently stationed in the DFW area and West Texas with a means of supporting various states such as Alabama, Arizona, Arkansas, Kansas, Louisiana, Mississippi, New Mexico, and Oklahoma.

## A full-service electric power contractor you can rely on.

Sumter Utilities builds, maintains, restores, and expands power infrastructure across the Southeast. An influential safety culture and well-trained workforce make Sumter Utilities the preferred choice for:

- Overhead Distribution
- Underground Distribution
- Transmission
- Substations
- Renewable Energy
- Emergency Restoration

# BUILDING A STRONGER GRID FOR LOUISIANA

**GridLiance** is more than just wires. We collaborate with electric cooperatives and municipal utilities to improve the resiliency and reliability of the transmission grid. GridLiance owns more than 700 miles of transmission lines and substations in Illinois, Kansas, Kentucky, Missouri, Nevada and Oklahoma.

We work with electric cooperatives and municipal utilities to meet their transmission needs in a changing industry, developing customized solutions to meet their unique needs.

## GridLiance will:

- » Provide access to capital
- » Spur investment in transmission upgrades
- » Facilitate RTO/ISO integration
- » Promote renewable energy development
- » Provide financial, regulatory and compliance support
- » Stabilize transmission rates
- » Provide development, planning, construction, operations and legal expertise
- » Provide guidance on hardening infrastructure
